

26 FEBRUARY 1993

COMMITTEE OF ARCHITECTURE
16832 EAST PALISADES BOULEVARD
FOUNTAIN HILLS, AZ 85268

DEAR SIRs,

I have had the pleasure of working with Mr David Gray several times over the past 10 years. He has designed and constructed a personal residence for my wife and myself which is located at 16622 East Nicklaus Drive. He was also heavily involved in the construction of the Fountain Hills Bowling Center, including the necessary structural design revisions and the interior design elements of this structure.

His expertise and understanding of the architectural process and his sensitivity to the project sites in Fountain Hills have convinced us of his abilities in both architecture and construction.

We highly recommend his endorsement as an approved Architectural Designer in any project areas the Committee should deem necessary.

SINCERELY

MICHAEL A MACERA
